OT-7

Sodom, Gomorrah (OT-9,13) and Zoar (OT-13) were 3 of 5 cities located in the valley of Siddim. It appears that Zoar was located far enough away from the destruction described in Genesis 19:24-25 that Lot would have been safe there. Most scholars would place these cities at the southern end of the Dead Sea, in an area now covered with water.
